2BAR Spirits

2BAR Spirits in Seattle is a craft bourbon distillery named after a fifth-generation family-owned cattle ranch in South Texas. The flagship bourbon is a full-flavored straight bourbon made entirely from grains proudly grown and harvested by Northwest farmers. 2BAR Straight Bourbon has been reviewed by The Whiskey Wash, approved by Fred Minnick, and featured on an episode of The Whiskey Vault as a "rich and robust" and "vibrant and complex" whiskey.

Maddie Kelly, Head Distiller

Maddie joined the 2BAR team in 2013, bringing her passion for food and chemistry to the science of distilling. Maddie was drawn to distilling after earning her Bachelor of Science in Chemistry. She started at 2BAR as a volunteer and quickly worked her way up the ranks. She has been running the production at 2BAR for the past eight years, and couldn't imagine doing anything else. When Maddie isn't making Bourbon, she's at home playing with her 3 kids, hiking in the Cascades, or out on the soccer field.
