

Smith Tower

OBSERVATORY EXPERIENCE

YOU ARE
Al Hubbard

The Rumrunner's Engineer

Hubbard is Seattle's celebrated "boy inventor," who claimed to develop the miracle coil in 1916 that produces power from thin air. Hubbard is just about to file his first patent. He runs station KFOX for the Olmsteads, and he's also the rumrunners' bag man paying off the cops.

Smith Tower

OBSERVATORY EXPERIENCE

YOU ARE Al Hubbard

FIND A STORY AROUND EVERY CORNER.

1. Find the business offices. What's the name of the building manager?
2. Find your desk in the radio station. What kind of patent have you applied for?
3. Listen to line 4 in the switchboard room.
Does the private investor bite?
4. Explore the map. Where did you test the Hubbard Coil?
5. Find the Observatory. Did you go down with Roy Olmstead and Jerry Finch?

Share any correct answers with an Observatory staff member for a reward.
