METHODOLOGY

The *Condé Nast Traveler* Readers' Choice Awards survey was made available through a secure website at cntraveler.com/vote. This year's tabulation of results from hundreds of thousands of respondents who submitted ratings during the sweepstakes period of April 1 through June 30, 2019, was done by Condé Nast. The questionnaire contained lists of candidates in various categories (Cities, Hotels, etc.). Candidates must receive a required minimum number of responses and a minimum overall rating to be eligible for a Readers' Choice Award. Candidates are judged on a set of criteria relevant to their category, based on a standard five-point scale converted to a percentage: excellent, very good, good, fair, and poor. The average of these ratings determines the final score based on five decimal points, with two decimal points being published. For example, the score of 99.85 for L'Horizon Resort & Spa in Palm Springs (No. 1 resort in the U.S. this year) represents the average of ratings the property received for rooms, service, food, design, location, activities/facilities, and value.
